

# MAJOR DOWN-WIND BILLETS

**UPDATED on 25 Jul 02**

A few notes before you read the list below:

This list **WILL CHANGE**. Your assistance in keeping it accurate is requested and appreciated. At this time, this is the best estimate based on currently identified movers and current staffing goals. As officers make decisions it will effect the below. Your input is critical in maintaining a clear picture of summer '02 down-wind billets, so please keep it coming. SJA/OICs your assistance in this endeavor is greatly appreciated.

Below is the fine print, so lawyers take the time to read it!

- Let me say again that this list **WILL CHANGE**. It is meant only as a tool to help the movers evaluate their opportunities. I may have overlooked something, some officers may retire or resign, some will certainly seek to extend and some may request to move early. Also, **MMOA** may have different ideas than we here at JAS regarding where judge advocates can best serve the Corps. The assignments process is a fluid one, so remember **keep rechecking the list** and Semper Gumby!!
